~ From the Editor ~

WHAT'S A "ZINE"?

In basic terms, a zine is a self-made, non-conventional editorial, comprised of pictures and words that helps a group or individual to communicate an idea to a broader stream of society. Our format allows us to be creative and fun and still deliver our message.

Tell us what you think  
give us ideas, share...

## PB or Not PB? That is the Question!

Participatory Budgeting (PB) is a big idea, and it's kind of new, but it isn't really a hard concept to understand. At its heart, it's about a community coming together and cooperating to develop a spending plan with someone who controls or administers a budget. You can think of that someone as being a 'PB stakeholder'. This money is generally tax-payer money and this community is usually partially or wholly responsible for having paid into this tax money. It's all

about deciding how to spend your tax dollars to better your community.

Any community or group that can agree on a few basic projects can make up plans and approach a PB stakeholder, who holds funds for neighbourhood improvement initiatives. Many cities have them. Then, your group offers to oversee the planning process for the PB stakeholder. They collaborate to oversee the implementation process, to ensure everything goes to plan. That's what makes PB different: your group stays involved right through to the completion of the project.

This is because PB is a form of 'direct democracy', which means your community makes a plan for positive change on your neighbourhood, and then makes it happen. It might sound like a lot of work, particularly for volunteers, but the results are very rewarding and exciting, and lots of fun for everyone who comes out to vote. And it all starts simply, with a community making its collective voice heard, and finding the right people to listen.

PB Herman

*Lee Edward McIlmoyle :: Head Graphic Designer :: CLEARvision Studios  
Stinson Representative :: PBW2 2014 Startup Committee*

### Brand New? Brand Now! <turn ? into !>

After a careful hiring process, the PBW2 Start-Up Committee was able to procure the services of **Karen Burson**, creator of the *Eat Local* and *Good Food Box* programs for Environment Hamilton. Karen is also assisted by **Nathalie Zur Nedden, PhD**, a teacher and recent import to Hamilton, who brings with her invaluable PB experience from Toronto. Together, this dynamic duo fight crime and rid... oh wait, no, I mean, they will bring an exciting and fun PB process to Ward 2 in 2014!

# CARTER PARK MURAL PUBLIC ART PROJECT

## WHAT IS YOUR OPINION?

The City of Hamilton is currently conducting a public art competition to select a mural to be installed on the large concrete wall on the east side of Carter Park. A jury of volunteer citizens and artists has reviewed 33 artists' submissions and has short-listed 6 for public consultation. Please see the back cover.

To learn more about this project, review the artists' proposals and provide your opinion please see the website:

Planning and Economic Development

## CHARLTON - NOW !!

In December 2012, Mr. VanKleef applied to the City of Hamilton to build 3,6 storey condo buildings above an underground parking structure at 467 Charlton Ave E. A group of Stinson residents, committed to responsible escarpment development, have been working together since 2012, addressing the concerns of the neighbourhood! We have much to do and need your support and input. We are planning a public meeting on Thursday, May 15th @ 7pm at The Central Memorial Rec Centre (93 West Ave S @ Stinson St & West Ave S). A detailed account of the 467Charlton Project can be found on the SCA website at the link beside this notice. Thank you!

### LOFTY IDEAS

*(See pg 6, 9 & 10 for other articles)*

I very clearly remember the day back in 2001, when I first stumbled across what I now know to be the Stinson neighbourhood, while searching for a house to purchase. One of the main things that stuck with me was the grand Stinson School. I thought "Wow – wouldn't it be great if one day this school was turned into lofts?" It never crossed my mind that one day I'd be living there...well, maybe in my subconscious mind, it did.

It was December, 2013 when my partner and I received keys to a converted corner classroom with South-West exposure. Being the only people living on the 3rd floor was cool and a little creepy. Cool because it often felt like this giant city palace was all ours, creepy because we had heard stories of ghosts wandering the interior. I'm somewhat happy to say that we've yet to come across any spirits. We did however think on the sheer number of young Stinsonites who spent time sitting and learning in what is now our open concept kitchen-dining-living area: 25 students per class X 345 teachable days X 93 years of operation. If you do the math, it's incredible! Many of these youngsters likely went on to do great things for Canada! Maybe you've heard of some?

Stinson School has been saved from what perhaps would have been a life of slow deterioration and possible death at the helms of a wrecking ball. After being vacant for so long, more people are moving in and once again Stinson School is coming alive. However, instead of being filled with students, this time it will be with new neighbours and friends who will call Stinson School Lofts and our community their home.

## *(Articles from the Stinsonian Institute)* **(JOE?) CARTER PARK - You'll be hitting a home run...**

It's hard to imagine with this uncompromisingly cold winter, that spring will come. But I believe it will. And with spring, I recall my first ever experience with the Stinson Community Association (SCA). The year was 2010. The SCA had a web-site and I came across the *Stinson View* - it opened my eyes to the community around me.

I read about a great deal of events, but it was the spring **Team-up to Clean-up** that sparked my attention - I wrote down the details and my girlfriend and I walked down the road to (Joe?) Carter Park. We were greeted by warm smiles and friendly neighbours. The event made me feel at home. I suddenly felt connected. It was just a neighbourhood clean-up, a small gathering, but everything clicked.

I had moved to Stinson without much knowledge of the area, but a chance newsletter probably changed my life. I hope someone reading this, decides to do what I did and be a part of a community event, like *Climb Mount Everest* or enter the *Hot Dog Eating Contest*. This Zine will hopefully encourage you to be a part of it too.

### EGGSTRA, EGGSTRA

*(Articles from the Stinsonian Institute)*

It began as an idea, with only a handful of volunteers and 5,000 chocolate foil eggs. What happens next, you will never believe.

*Reads like something you'd see on Facebook, doesn't it?*

Yet last Spring that is exactly how it began. An idea was blurted out at one of our Stinson Community Association general meetings. A few eyebrows were raised along with a show of hands willing to volunteer and the wheels began turning.

*~ Fast Forward ~*

The sun shone on Carter Park that afternoon as the volunteers gathered to give the park a good cleaning and set up for our 1st ever Stinson Easter Egg Hunt. It didn't take long for the park to fill up as anticipation grew on all those little excited faces. The Easter bunny presented gifts while our Ward 2 Councillor, Jason Farr, joined us along with his "mini-me", in tow.

The actual hunt lasted 2 whole minutes, but the memories of the many participating families will always include Stinson and Carter Park. Also, the experience and pride the volunteers took away with them was priceless.

Our 2nd annual Stinson Easter Egg Hunt will take place on Saturday, April 19th at Carter Park. Activities and face painting will be offered between 1-3pm, the eggs drop at 2pm. It is a "Bring Your Own Basket" event. Come out and make memories with your family in Stinson or show your Stinson pride by volunteering at this years' Hunt...

We still need a few more volunteers!

## Not Just Part of the Core, But Actually, the Centre

Since first moving into this neighbourhood, I have always found that one of the greatest things about Stinson is our community centre; **Central Memorial Recreation Centre**. In particular, I love that we have a pool within an easy walking distance.

Although I first signed up for a swim pass to re engage in a childhood favorite activity, I soon found myself feeling better, losing weight and meeting friendly faces (including the lifeguards!). One great thing about Central is that they offer free programs for all ages and for various activities, including swimming. A list of their free activities includes:

### Swimming

Public Swim on Wednesdays 6:30 – 8:30 PM  
 Parent and Tot Swim on Thursdays 9:30 – 10:30 AM

### Preschool

Preschool Gym on Tuesdays 10:30 – 11:30 AM; Thursday 10:30 – 11:30 AM

### Children and Youth

Crafts on Mondays 4:00 – 5:00 PM; Tuesdays 3:30 – 5:00 PM (6-12 yrs)  
 Sports on Tuesdays 3:30 – 4:30 PM (6-12 yrs)  
 Science on Wednesdays 3:30 – 5:00 PM (6-12 yrs)  
 Board Games on Thursdays 3:30 – 5:00 PM;  
 Fridays 3:30 – 5:00 PM (6-12 yrs)  
 Zumba Kids on Thursdays 4:00 – 5:00 PM (7-11 yrs)

### Teens

Teen Gym on Fridays 8:00 – 9:30 PM (13-17 yrs)

### Adult

Knitting/Crochet on Saturdays 1:00 – 3:00 PM (16+ yrs)

I encourage you to check out all of Central's activities, which you can do by visiting the centre to speak with their friendly staff or to pick up a Rec Centre guidebook. Also, you can see their updated schedule online.

I hope that you find yourself thoroughly enjoying at least one of Central's activities, just like myself at the swimming pool. I hear they have Yoga classes starting in April...I think I might have to check that out!

*"City of Hamilton Thrilled to be Working with the  
Stinson Community Association to Implement  
Their Neighbourhood Action Plan"*

launch of  
ideas in

Congratulations to the Stinson Community Association on the  
*The StinZine* - your neighbourhood magazine that will reach every  
business six times a year. What a great way to share information and  
your neighbourhood!

The staff from the City of Hamilton's Neighbourhood Action Strategy Office are very excited to be working with you to help make this great area of our City even better. Your Neighbourhood Action Plan was one of the first ones developed in the City and provides a great call to action in your neighbourhood.

There are currently 10 other neighbourhoods across the City that are developing plans and are working to mobilize neighbourhood assets to make their plans come alive. All of the plans that have been completed – as well as additional information about the City's Neighbourhood Action Strategy – can be found at:  
[www.hamilton.ca/neighbourhoods](http://www.hamilton.ca/neighbourhoods)

Our work together will be about action, based on the plans and ideas that residents, businesses and organizations have – not about more studies on what needs to be done. It may take some time to make all our dreams come true but what better time to start than now!

There are lots of reasons why the City of Hamilton is working in partnership with the Stinson neighbourhood, so let me highlight a few. First, you live in a great neighbourhood and we want to help you share that story and make further improvements that will make the neighbourhood even better. Second, right from my first conversation with residents back in 2011, we felt welcomed by the neighbourhood. The City's Neighbourhood Action Strategy is about finding new ways for neighbourhoods, the City and other partners to work together and to do that we need everyone to be open to building stronger relationships. That does not mean we will always agree but it does mean we continue to work together to solve the issues we are tackling. Third, we know that the work we accomplish together in

Stinson will provide a road map for other neighbourhoods. You are a motivated and action oriented neighbourhood and your leadership will inspire other neighbourhoods.

The Neighbourhood Action Strategy Office is here to help wherever we can. We are able to help connect you to resources or other partners that can help you implement your plan. We will also be supporting some research and evaluation that will allow us all to determine what is working and what is not working as we implement the plan. The best way to connect with our office is through Rebecca Doll (your Community Developer) but if you want to contact us directly you can do so through Suzanne Brown whose contact information is listed below.

We look forward to continuing our work with the Stinson Community Association. If you are already involved with the work in Stinson thanks for all you are doing. If you are not yet involved then I encourage you to connect with the Community Association and bring your assets forward to help make the Stinson Neighbourhood Action Plan come to life!!

[Paul.Johnson@hamilton.ca](mailto:Paul.Johnson@hamilton.ca)

The Stinson Community Association is one of eleven neighbourhoods working with the City of Hamilton to pioneer a way for government and residents to work WITH each other, rather than the usual way where residents make demands that are seldom met, and municipalities make decrees that are seldom popular. These neighbourhoods, through local planning teams or associations, are making a commitment to a way of working with each other that we call asset-based community development, in recognition of that fact that we all have assets to contribute; skills, talents, time, energy, knowledge, passion, enthusiasm, curiosity, patience etc.

The Stinson neighbourhood is full of assets that are already being built upon; from the numerous action teams and committees to the infrastructure like Carter Park and the Rec Centre to agencies and businesses that are creating programs and services that we value. The idea is that by building on our strengths we ( you me and the rest of us) make the community better for everyone.

The monthly meetings are a chance for teams to check in and give updates on the progress of the projects. It is also the place for decision-making. Communities are coming together all over the world to help make positive changes but in Hamilton, the unique thing is that the City government is changing the way it does business in order to support this resident-led planning and decision-making. It will be a slow thing to shift all those departments and over 7000 employees, but what we can do in Stinson is make sure that we are ready for it, by taking stock of the neighbourhood action plan, talking about issues, focusing on the vision and working towards making sure everyone is valued, connected and heard. It's our chance to show them how democracy is done.

My job is to work WITH you. To help build relationships with and between people; to promote asset-based community development; to support resident-led planning teams;

to bring diverse stakeholders together to implement the neighbourhood action plan; to cultivate the leadership capacity within the neighbourhood. If you'd like to get involved, come to a meeting or let me know:
